Contents

Key sections of the presentation

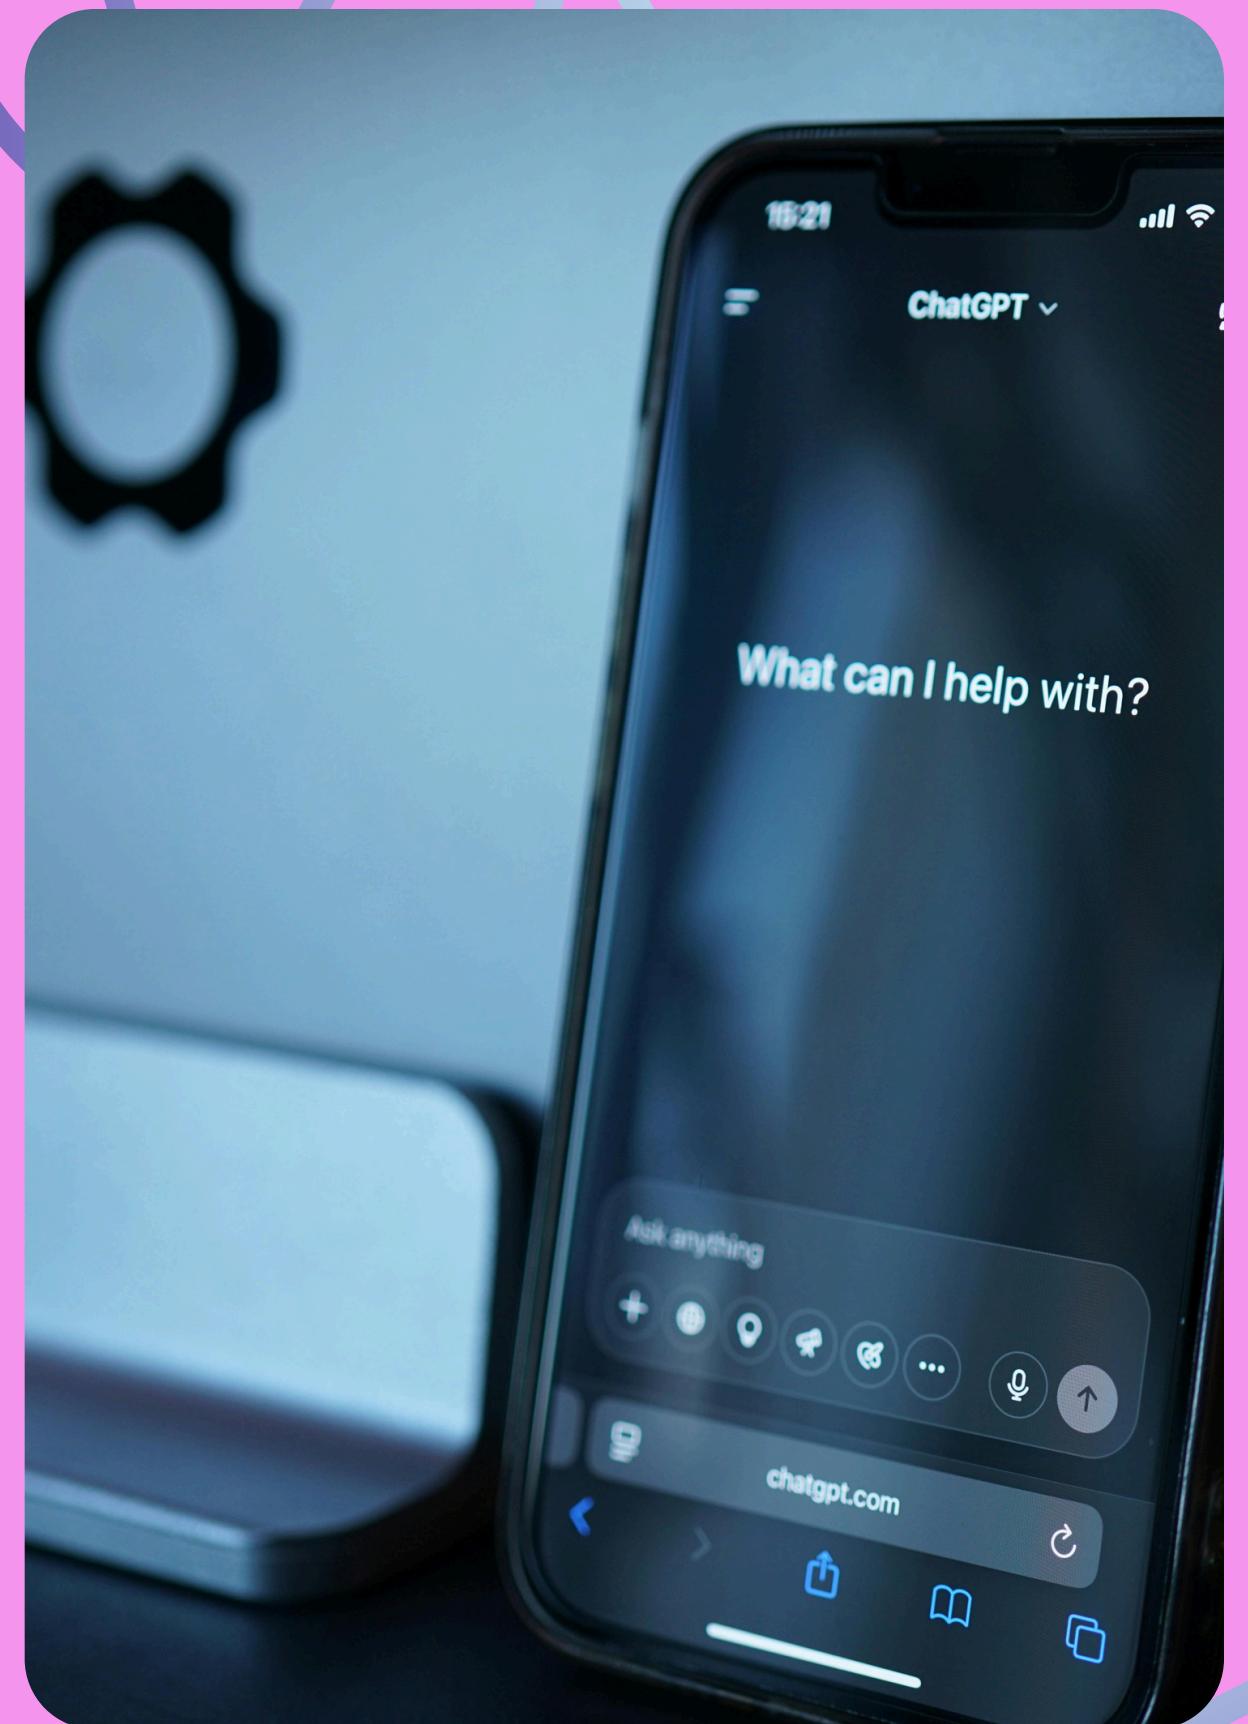

- 01 AI Chatbot Diagnosis
- 02 Consultation System (B2C)
- 03 Nearest Doctor Recommendation
- 04 Doctor Rating System
- 05 Online Appointment Booking
- 06 Donation & Help Section

AI Chatbot

Our focus is on developing an innovative AI-powered chatbot that assists users in self-diagnosing symptoms based on their medical history and current symptoms.

SYMPTOM CHECKER WITH PERSONALIZED RECOMMENDATIONS AND INSIGHTS

This tool aims to enhance patient engagement and provides accurate initial assessments, guiding users to appropriate care options based on their inputs.

Doctor Consultation System

Our focus is on providing seamless access to healthcare through a user-friendly platform for online consultations tailored to patients' needs.

INCLUDES SIGN-UP, VIDEO CALLS, BOOKING, AND E-PRESCRIPTIONS.

Patients can easily connect with qualified doctors, manage appointments, and receive prescriptions digitally, ensuring efficient healthcare delivery.

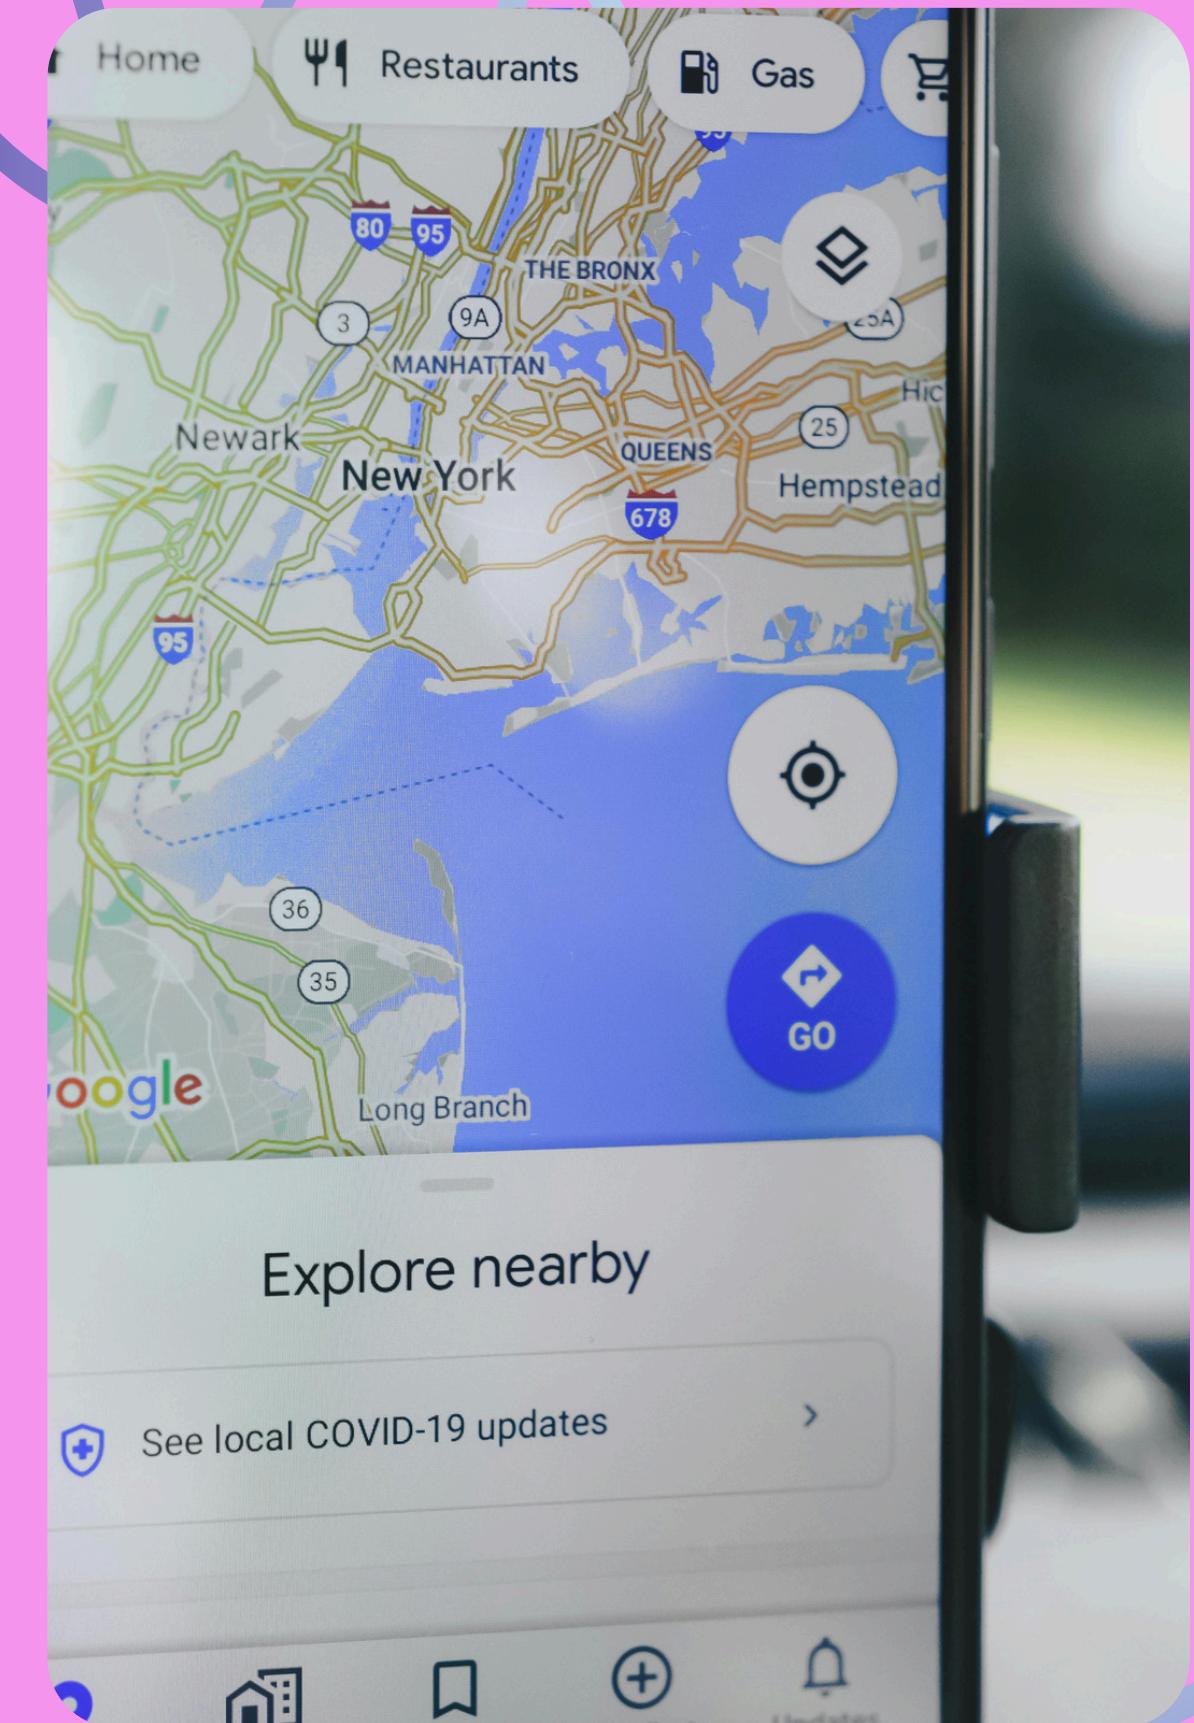

Nearest Doctor

Our system utilizes the Google Maps API to help users find nearby doctors or clinics based on their location and specific filters.

LOCATION-AWARE RECOMMENDATIONS FOR ENHANCED ACCESSIBILITY AND CONVENIENCE

This feature aims to connect patients with appropriate healthcare facilities quickly, ensuring timely access to medical support and resources.

Doctor Rating System

Our focus is on gathering valuable feedback through ratings and reviews to enhance patient experiences and improve healthcare services.

COLLECT RATINGS, MANAGE REVIEWS, AND RANK DOCTORS BASED ON PATIENT FEEDBACK.

This system promotes **transparency** and accountability in healthcare, empowering patients to make informed decisions about their medical providers.

Online Appointment Booking

The platform enables users to easily manage their appointments through a user-friendly interface for booking, rescheduling, or canceling consultations.

STREAMLINED SCHEDULING FOR PATIENT CONVENIENCE AND ACCESSIBILITY.

Users receive instant confirmations and reminders, ensuring they never miss an important appointment with their healthcare providers.

Donation & Help

Our focus is on providing verified donation requests to ensure that help reaches those in need efficiently and transparently.

ANONYMOUS AND PUBLIC DONATION OPTIONS AVAILABLE.

We aim to keep donors informed with **impact updates** on how their contributions are making a difference in the community.

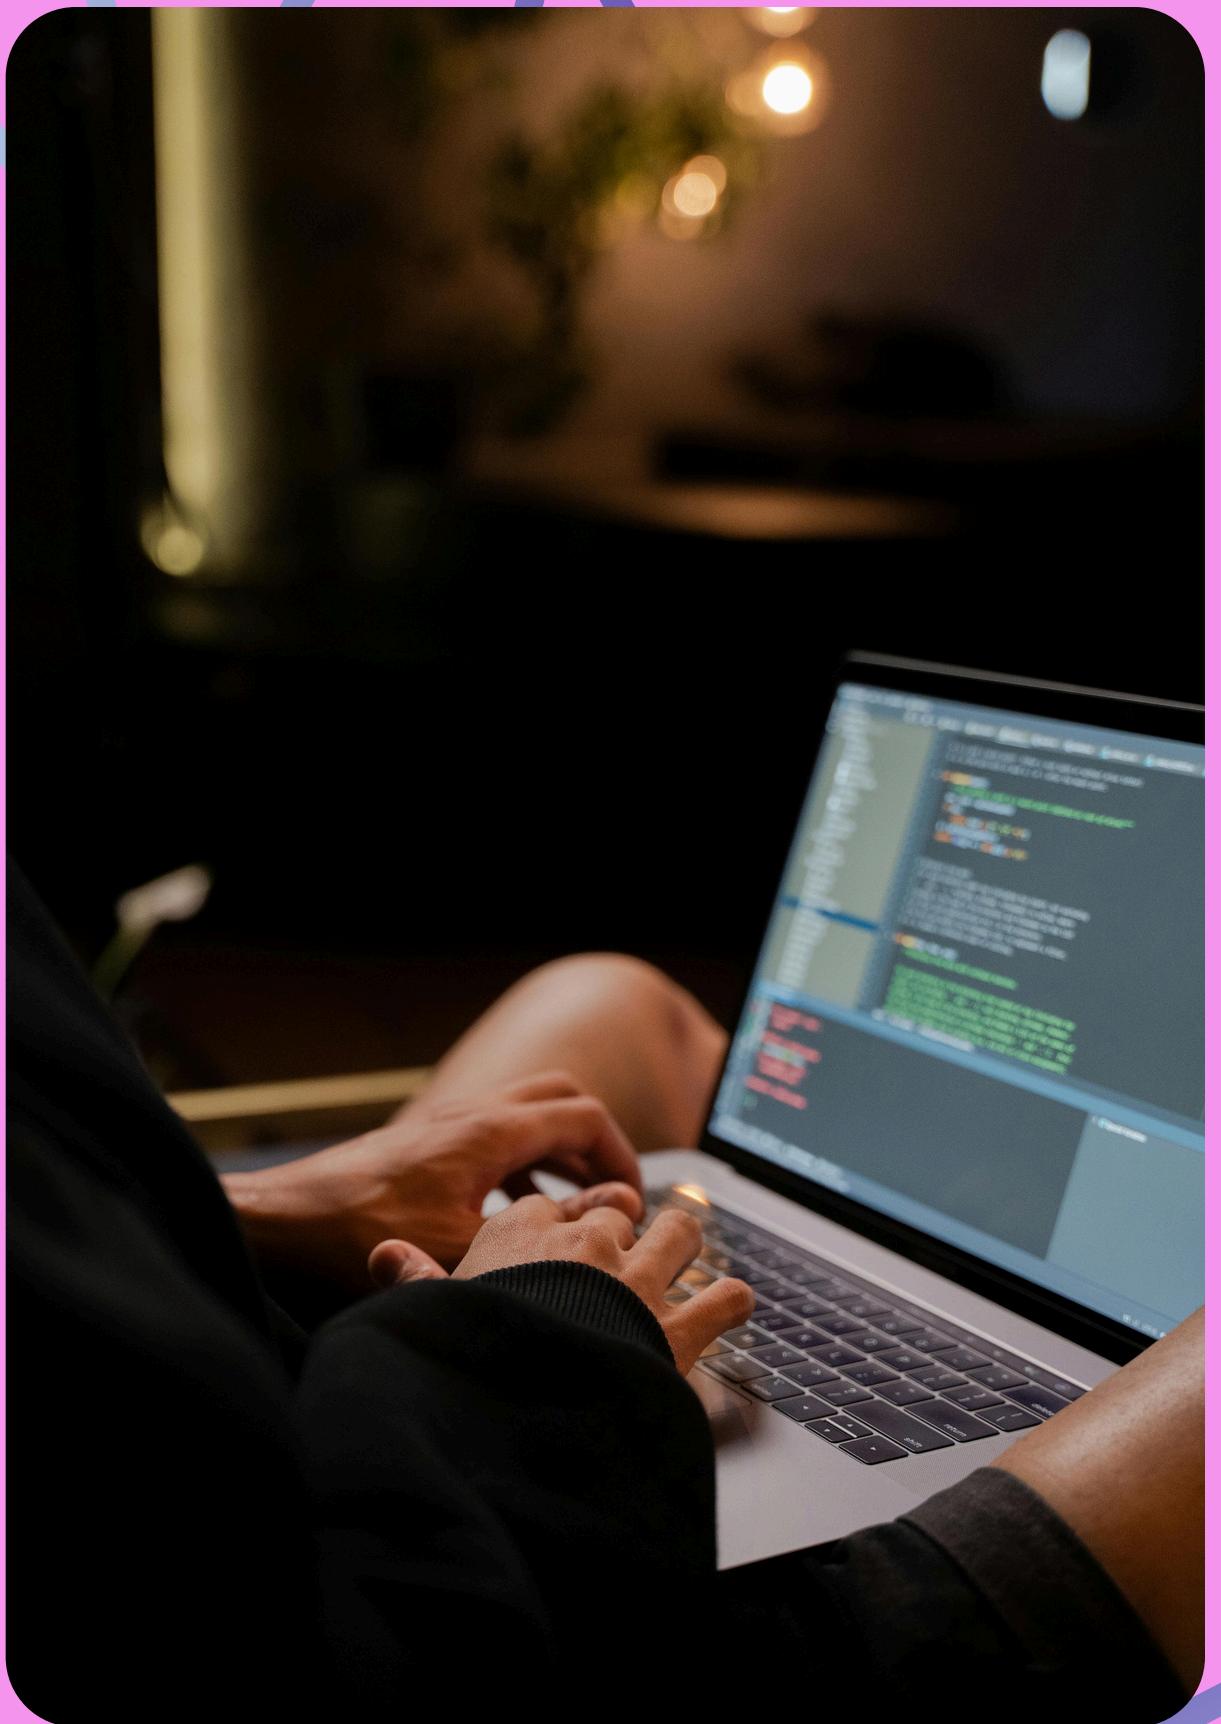

Tech Stack Overview

Our platform leverages advanced technologies to facilitate efficient healthcare solutions through AI-powered tools and seamless user experiences.

UTILIZING CUTTING-EDGE TECHNOLOGIES ENHANCES PATIENT CARE AND SERVICE EFFICIENCY.

The tech stack includes Frontend, Backend, Database, AI, Video Call, Geolocation, Auth, and Payments to ensure a comprehensive and robust platform.

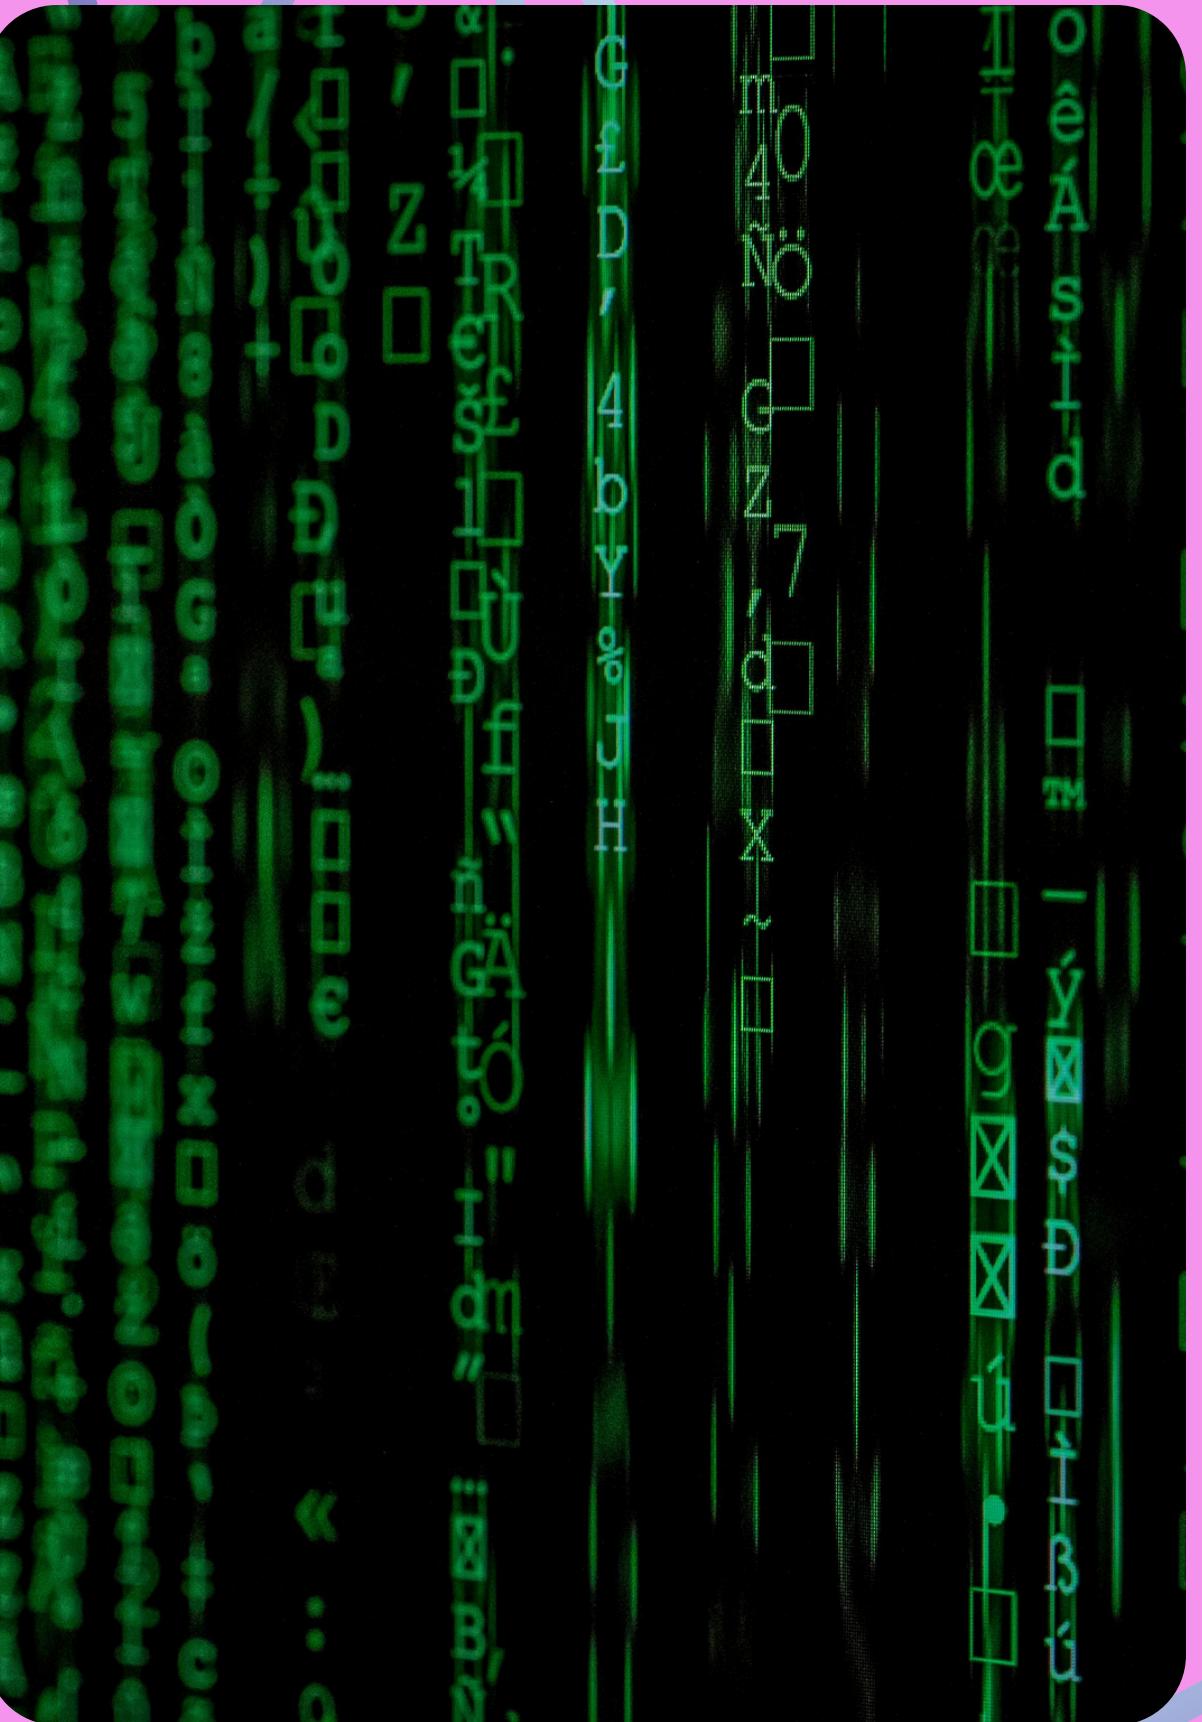

Impact & Future

Our platform is focused on providing instant help and ensuring transparent donations to facilitate healthcare access for all.

FUTURE PLANS INCLUDE EXPANDING OUR SERVICES AND OUTREACH EFFORTS.

We aim to create a system that not only responds quickly to medical needs but also builds trust through clear donation processes.

THANK YOU
